OC Labor Federation Stands with Magic United

The Orange County Labor Federation stands in solidarity with the Disneyland Cast Members who are joining together with Actors' Equity Association to form Magic United. The talented workers who bring Disney Magic to millions of visitors each year deserve decent wages, safe working conditions and upward mobility, just as the more than 270,000 working people we represent do. Worker power builds strong communities and we are thrilled to welcome the 1,700 future members of Magic United and we stand in solidarity with them in fighting for respect and dignity for all working families.
